1 Introduction

1.1 What this handout is about

- The process of writing a student thesis at the Chair of Information Systems, Innovation and Value Creation. This includes Bachelor, Master and Project theses.
- The expectations towards the student for writing their thesis.
- The deadlines for different phases of the process.

1.2 The general process

1.3 Where to find topics

You can find the topics at the chair here: <https://www.wi1.rw.fau.de/thesis-offerings/>

You can also approach any supervisor with a suggestion for your own topic. Make sure you only write to supervisors that are suitable for this topic.

2 Important information

2.1 Requirements

Many study programs, especially for Bachelor, require a course on writing academic papers, which is offered by our chair:

- Bachelor seminar:
<https://www.wi1.rw.fau.de/teaching/bachelorseminar-seminar-fuer-abschlussarbeiten/>
- Master seminar:
<https://www.wi1.rw.fau.de/teaching/masterseminar/>

You can hand-in your thesis before visiting all sessions, but you won't get a grading before finishing all sessions.

2.2 Timeline and deadlines

For each study program the ECTS and available working period is different. You can look up the details for your study program at WiSo here:

<https://www.wiso.rw.fau.de/studium/im-studium/modulhandbuecher/>

Usually it is 9 weeks, only for industrial engineers (Wirtschaftsingenieure) it is 5 months.
